

REMARKS

It has come to Applicant's attention that claims 1-20 attached to the courtesy copy of the specification filed on March 29, 2006 do not in fact correspond to the claims as filed in the International Application. The claims as attached to the International Application forwarded from the International Bureau, including claims 1-23, are accurate and form the basis for the subject application. In that Applicant desires that claims 1-20 as attached to the courtesy copy of the specification to be examined in the subject application, this Preliminary Amendment to affect entry of these claims is submitted. As such, claims 1-20 are believed to be subject to examination at this time.

Examination on the merits is requested.

Respectfully submitted,

Eric J. Robinson
